New material needed for future issues; drawings, comics, articles, poems etc. Lately I've received a lot of poetry contributions. This means that if you send poems you may have to wait a year or so until they get published. I'd like to get more articles of whatever subject, if I like what I read I'll print it.

**SIVULLINEN N°16(A4, englil-**  
**sh/28p)** Artzine  
Jouni has been doing Si-  
vullinen for years, and I  
can't think of any other  
similar zine. He's compil-  
ling drawings, collages,  
poems people want to con-  
tribute, and now that Si-  
vullinen is pretty well  
known in the scene you  
get contributions from  
all over the world. Some  
are more on the surreal  
, fantastic side, some more  
on the political side,  
it's a bit of a mixed bag.  
While punk mostly concen-  
trates on music, it's im-  
portant to show that there  
are other ways of ex-  
pressing oneself keeping  
the DIY spirit, and Sivul-  
linen is doing an excel-  
lent job at it. 25ppd from:

## SIVULLINEN

#15. This one's from Finland, contributors worldwide. Generally punky freaky one page art, poetry and  
fiction. Some of the pix are genuinely quite frightening, lots of nasty pointy teeth and distorted faces and black  
ink (great stuff!) All in all pretty good: I'd like to have seen less of the poetry and more of those in yer face  
portraits, though. Rock on! [RG]

BY PASS

**Sivullinen #15:** Jouni Vääräkangas, Kaarelantie 86 B.28, 00420 Helsinki,  
Finland. \$3. It's an artcore zine, which is a phrase I wasn't familiar with till  
now, but it fits. This has artwork—much of it excellent—and graphics galore, as  
well as some poetry, fiction, and political stuff. It's got a harsh edge that's really  
appealing and it's very well done, with a clean layout and good printing.

scene. The newsletter is printed about 1500 times and is distributed through several underground networkers

This is a project nearly started, our goal the  
diffusion of ideas, thoughts and anti-commercial  
stuff through a tri-monthly list. We see, totally  
foolish, how the most of the so called  
"Alternative distribution" isn't an alternative  
for nothing if not to follow the way of the  
mercantilism and the musical consumerism,  
repeat clichés and no spread any kind of  
creation. We understand the music as a  
middle of diffusion of ideas, as attitude  
and as blind stupidity, as competition  
or as ineptity. We gone to create and  
to support the creation and to do a real  
middle of spreading, to be a vehicle of  
communication between the persons. Yours  
is the opportunity of support: us, we need  
your collaboration, we're interested in  
contact with: Distribution labels, record  
cassette labels, artists graphic, writers,  
fanzines, etc, etc... to have lots of contacts  
interested in distribute the lists and also  
interested in distribute their stuffs through  
us. About this last commentary some notes:  
we won't distribute cds, we select the stuff  
that we gone to distribute, we'll deny our  
support to any manifestation of racism, sexism,  
homophobia, etc, etc... is for this, that it would  
be excellent if you can send a promo-copy  
of each one of your items, to have a better  
reference. Another point: we're very interested  
in spread always through our mail free stuff  
as: booklets, pamphlets, etc, etc... then if  
you do something as these, write now.  
Talking about more concrete things of this  
project, the tri-monthly lists will be two:  
(one spanish, other in english), just to not

limit ourselves and our potential friends.  
Ohh... we forgot it... in this moment we only  
can accept stuff in consignement, cause  
we're really broke, then if you want your  
money in advance, don't write now. The  
small profits of the distribution collective  
will be to pay the lists to pay the flyers  
and also to help in a near future in the  
realization of a D.I.Y. zine, of autonomous  
expression, in tri-monthly format and also  
to create a small labels of art, reading,  
and music. In fact this small profit, won't  
affect the prices because these will be  
really low. All the people interested in  
collaboration, to have a good distribution  
of their stuffs, and to receive the first  
list write and put glue on your stamps  
for free communication. Ideas, music, reading  
and art for the people, not for the business.
